Whether it is a cocktail reception, a private sit down dinner or all out party.

Juniper is your venue.

Over the years we have been hosting specialized weddings.

Imagine celebrating your wedding at Juniper. The experience is one that will tempt the imagination and delight all senses.

Imagine the beauty of our contemporary and distinctive dining room: Smokey window walls that wrap around the dining room revealing the colors of flowers, the sparkle of china, silver and the flickering of candles. Imagine your guests entering through the frosted front doors into an intimate warm space that immediately suggests that this day, this dinner, this celebration will be extraordinary.

Imagine the dinner prepared by the award-winning Chefs of Juniper's kitchen. A menu created especially for you, reflecting the flavours that satisfy your soul; the flavours which you want to share with your friends and family on your wedding day. A meal perfectly matched with wines that you select with our sommelier; we will offer a wine selection as distinctive as your menu.

With your imagination we can create a reception which delights all of the senses and creates memories that you and your guests will cherish forever.
